Headmaster: S T MULRYNE B.Ed

16th September 2019

Dear Parents

As you will recollect, Terrington Hall was inspected by the Independent Schools' Inspectorate last June. The report has now been released and a copy is attached with this letter and it is also downloadable from the School's website.

The Inspection was made up of two parts. It looked at matters of Compliance with the Independent Schools' Standards and it also examined the Educational Provision with judgements made on the achievement of pupils, including their academic achievement and also their personal development.

We are delighted that, in the judgement of the Inspectors, both pupils' achievements and development are **excellent**. This is the highest grading we could have achieved. It means that those aims and objectives that we have for your children are being delivered effectively and that the aims of the School are being met. The School has never before received such a good report and we are most proud of the comments within.

The aspect of the inspection that looked at our compliance with the Independent Schools' Standards found that we are compliant in **nearly** all areas. However, the team that visited did disagree with our most recent fire risk assessor's findings and the manner in which we have chosen to implement the recommendations of the risk assessment. We have immediately taken steps to address those areas that concerned the Inspectors; this has included the first stage of a two stage installation of an updated fire detection and warning system. The second stage will take place over the upcoming half term holiday.

We would like to thank all pupils and parents who completed questionnaires, as they were invaluable to the Inspectors in coming to their judgements about the school.

We would also like to thank the Teaching Staff at Terrington Hall who work tirelessly to deliver such a high quality education to the children and offer them our congratulations on the judgements made by the Inspection Team.

We now look forward to another excellent school year during which parents can be assured that the standard of education that their children are receiving is of the very **highest quality**.

Yours sincerely,

Rodger Hobson and Stephen Mulryne
